# What Parents Say

"Wow-what a great party it was!

Hattie was the best entertainer and the kids absolutely loved her. So many parents told me that their kids had the best time dancing to kids' tunes and learning a dance routine. Carly and the whole team made sure everyone had an unforgettable experience. A shout out to the whole fixation team who are always so patient & lovely and no ask is too much. I would definitely recommend the team and the venue if you want to have a different kids' party rather than going to a soft play venue."

"Great experience. Will be back for more!

They made my little one's birthday party really special. Kids were mesmerised by the fairy. Will definitely use Fixation again"

"My daughter had a fantastic 5th birthday party yesterday! The host was fantastic and kept all the children engaged in the games. As well as pass the parcel etc, there were several fun party games I hadn't seen before. The venue and organisation worked perfectly too. Thanks so much for everything!"

"My daughter was so excited for princess to joined her 5th B-day party and loved every minute of it. The communication before party was excellent and provided very helpful tips regarding party schedules. Fixation Academy team is very professional and made the party super special for children and easy for me. They have great understanding of children's special request and needs which make the experience even more special.

Thank you Fixation Academy!"
